

REPORT OF THE ARBITERS' COMMISSION for the 2nd quarter FIDE PB 2019

(Baku, AZERBAIJAN, June 27-30, 2019)

The present report covers the commission's activity in the period between February and May 2019. It was prepared in collaboration with Nebojsa Baralic, Secretary of the commission.

Following a handover session in Athens mid-January between Takis Nikolopoulos and Laurent Freyd, the focus was put on:

- ensuring that operational activities in link with the federations and the FIDE Office were up and running (licensing, seminars, titles applications)
- activating the commission on core activities (arbiters' database, education, arbiters' manual, questions and answers, assignments)
- establishing connexions and start collaborative work with the other FIDE commissions, arbiters' leadership in continental/regional chess organisations and FIDE Lecturers

1. ADMINISTRATION

a) DATABASE REVIEW, LICENSING & SEMINARS PROCESS

Better understanding the population of chess arbiters is a must to propose the best plans for future actions in favour of development. Our first action in that respect was to put in place a standardized database, interfaced with the FIDE profiles on the rating server. The 7 distinct lists which existed (categories A, B, C, D; National Arbiters, Inactive Arbiters, Lecturers) were merged into one file; duplicates were removed names aligned to the FIDE database and FIDE Identification Numbers completed for all.

13000 names were checked individually, as well as titles and licenses. As a result, gaps between the title/category and the level of license were observed on several hundreds of entries and a check is currently being performed with the support of the FIDE treasurer and accounting team.

Below is a breakdown of the arbiters (13221 entries, not showing 1027 inactive, deceased etc), by Continent, Sex (M/F), Title (International Arbiter/FIDE Arbiter/National Arbiter) and Category (A/B/C/D).

Table 1: Number of arbiters (excluding inactive) by continent, sex, title, category (June 3rd 2019)

While the administrative data is now under control, a significant element is still missing: having an easy access to a summary of the actual activity and level of tournaments led by the different arbiters. Indeed, profiling arbiters not only on title and category will be key, when seeking candidates to be proposed to officiate in FIDE events. Contact was established with the FIDE IT admin, to share needs in that respect and have the Information System evolve in the future.

Licensing process and seminar administration were also put under control. Requests are processed every Monday and requesters formally acknowledged.

In charge for the commission: Nebojsa Baralic, Laurent Freyd.

b) TITLE APPLICATIONS PROCESS

The commission introduced a new support process to the federations, in the area of title applications. The benefit is to avoid having applications rejected in the recommendations sent to the PB, and federations waste money. As soon as the deadline given to federations was met, the commission reviewed applications and shared feedback to those who needed to fix some elements in their applications.

As a result, more than 20% of the applications could be changed from “rejected” or “conditional” to “approved” (details of applications in Appendix B).

In charge for the commission: Nebojsa Baralic, Laurent Freyd, Takis Nikolopoulos, Irina Prokopova.

2. REGULATIONS AND PUBLICATIONS

a) ARBITERS` MANUAL

The ambition of the commission is to develop a new version of the manual (e-book version) with additional added value for the arbiters, medium term. For the short term, a new version including texts coming into force on July 1st 2019 will use the current format. Collaboration with other commissions and the FIDE Office was useful to progress in this task. Thanks to them!

This project is led by Shohreh Bayat, with collaboration of several commission members.

b) REGULATIONS FOR ARBITERS

Following a common observation that some parts of wording in the regulations for arbiters need explanations to be better understood and applied (especially when applying for titles or category upgrades), the commission will publish an article in the next issue of the Arbiters' Magazine to support federations and arbiters. This is again to avoid waste of time and money for the federations and for FIDE.

In charge for the commission: Nebojsa Baralic, Laurent Freyd, Takis Nikolopoulos, Irina Prokopova.

A complete review of the regulations for arbiters is also required. Plans will be shared at the next congress about that.

b) PROJECT: ASSESSMENT OF PAST EXAMS

As a first action in the arbiter's training sector, the commission addressed a message to all lecturers, to thank them for their involvement in supporting the development of future arbiters; and to request copies of their last 3 exams for assessment. Our regulations aren't specific about the content and format of exams. We will draw a baseline, establishing the pattern that was applied until now. Then the commission can give some more detailed guidelines about future examination tests for FIDE arbiters. The approach was unanimously welcome by the lecturers and, so far, more than 50 documents were already reviewed in 7 languages.

In charge for the commission: Mohamed El Husseiny (Arabic), Laurent Freyd (French & German), Irina Gevorgyan (Russian), Alex McFarlane (English) and Leandro Plotinsky (Spanish & Portuguese).

4. ARBITERS SELECTION IN TOP-LEVEL FIDE EVENTS

Following the 1st Quarter PB 2019, the commission was requested to propose guidelines for the selection of arbiters in top level events. As selecting arbiters was not covered in the past by the commission, the first internal activity on the project was to consult members for their ideas and proposals on the subject. A few significant ideas:

- Being "fit": having enough recent activity as an arbiter, take part in refreshment courses.
- Ensure representativity while preserving the required level of quality: gender, geography, differentiate skills needed by different type of tournaments
- Consider evaluation of leading arbiters for future selections
- Consider collaboration with PDC to act proactively on arbiters' development and selection for regions requiring support

The tournaments in scope being under the umbrella of EVE and GSC, we sought collaboration from both commissions, for a good synergy and ensure we build a consistent framework in line with their own expectations for the events.

Cooperation with EVE brought the following, knowing that their tournaments usually consist in more massive events:

- Gender: it seems realistic to apply the *minimum 25% women* in almost every arbiter's team for EVE tournaments
- Languages: select arbiters on a pragmatic way, based on the expected languages to be represented, with preference for arbiters speaking multiple languages

Cooperation with GSC is in progress.

Data analysis on arbiters showed various unforeseen disparities or shadow areas (geographic distribution, inactivity not registered) with significant impact on the identification of potential candidates and rotation principles. A profiling of the A-category arbiters based on their official records (activity, assignments in the last 30 months) was started to better understand where to set the bar in the guidelines – we need them to be specific enough, while still applicable within the existing regulations and current population of arbiters.

Once the pending inputs collected from GSC and category A/B profiling finalized, the commission is confident that an initial document could to be presented by the next FIDE Congress.
